New Business

- Terry will email out some updates on consequences for running up the score.
 - What is running up the score? Matt does not think you can put a number to it. Kyle agreed w Matt. It is a case by case basis and should be investigated. Robert made a recommendation that if the case comes up the coaches have a meeting to discuss it or call a special time out to discuss it with the referee or a board member. Tonie Ann shared some concerns with how to determine the consequence. Alix Ritchie suggested we do create some parameters. This discussion needs to be continued. Head Coaches need to be responsible for all of their squads.
 - **Motion by Matt Thompson that a coach may request a review by a board or other Head coach. If it is deemed that the score was run up, then the board will implement a consequence, first offense is a warning, second offense is a 1 game suspension for the squad coach. Seconded by Robert Borisch. Vote approved**
- Other concerns brought up by Terry's email like fighting and willfully breaking the rules are already in our bylaws under coaches code of conduct so the coaches didn't want to do anything with this topic
- Chuck is taking care of Practice fields - Panthers-Park, Bears-HHH, Tigers-Canyon View, Eagles-Amistad, Coyotes-Highlands, Huskies-Edison, Rams-Hanson Park, Colts- SHS

No future meeting. Please attend and help on July 12th
